“ Saudi Arabia is the greatest success story of the 21st century, and our pace of progress will continue at a higher speed, and will not stop or calm for a single day. ”

His Royal Highness Prince Mohammed bin Salman bin Abdulaziz, may God protect him, the Crown Prince.

Majed Alrajhi & Associates strives to highlight the justice aspects in the field of law, lawyering, legal advice, and legal studies, and to meet the expectations of its clients as partners in success. The company aims to gain the trust of its clients in all legal fields and to enhance legal enrichment in line with updates and legal developments nationally and internationally.

Majed Alrajhi & Associates is one of the largest law firms in Saudi Arabia, providing specialized legal services and advice to its clients. Since its inception, the firm has been committed to practicing law to the highest standards of quality and professionalism. Through its team of specialized and qualified lawyers with extensive legal experience and knowledge, the company strives to uphold justice and spread awareness of legal systems and regulations. The company also seeks to provide preventive awareness and resolve legal disputes by providing the best legal solutions for disputes related to business, administrative, real estate, contracts, inheritance, and others. The company provides the necessary advice to guide clients on their legal matters and represent them before courts, committees, and other judicial bodies.

For the Kingdom of Saudi Arabia is a prominent role model in its modernity and development in various fields, evidenced by the launch of its great vision (2030), and its desire and aspiration to implement sustainable investment and economic plans, which requires the injection of huge funds in this regard, entailing the existence of subsequent obligations; for this and that, it's been necessary to develop and modernize laws and regulations and draw them with careful technical care in a sophisticated and sustainable manner to contribute to keeping pace with aspirations and synchronizing international practices and attracting national and foreign capital in those developmental investments that matter and touch all sectors of the Kingdom, and even at the level of individuals, with the resulting accelerated and multiplied economic effects.

Due to the requirement of these projects for professional legal support through professional legal services with high expertise, solid efficiency, and integrated comprehensiveness that keep pace with the Kingdom's aspirations in this regard: The idea came to establish an ambitious national professional company in the field of law and legal consultancy, which is unique locally and competes internationally, and is the reference in legal services in its preventive and judicial role in the Kingdom of Saudi Arabia.

Company Objectives

The company aims to be the pioneer in providing legal services to governmental and private entities, whether local or foreign, by drawing up clear plans to distribute the various legal specialties in the form of specialized departments, out of our belief that each art of law has its independent specialty, and by attracting expertise from those who have previously serving in supreme courts, appellate courts, quasi-judicial committees, and governmental bodies at their highest levels, and also those who had a mark in major professional companies, which will have an impact on the quality of our legal services technically and professionally. What professional companies are measured by is the competence and professionalism of their teams. Excellence was then achieved through three basic pillars, starting with the competence and experience of the company's team at high levels, then with the company's internal departments based on specialties, in addition to the internal policies, such as the legal case deliberation system when preparing legal studies and drafting memorandums. This is reflected in the quality of legal work, and has a huge positive impact on your outcome, as it is a distinguished product.

Vision & Mission

Our Vision

To be the ideal partner by having integrated competence in the legal field and in legal services in both preventive and judicial role, and by serving legal or natural persons, at various levels, and through sustainable and sophisticated legal services.

Our Message

To contribute to improving legal professional standards by attracting the most qualified legal professionals to enhance legal quality, utilizing distinctive methods that suit our clients, in a way that enriches the judicial aspect and enhances the principle of trust and confidence.

Our Mission

Preparing legal consultations for government agencies, companies and individuals, representing them before the judiciary as necessary, achieving legal research and studies and providing notary, negotiation, mediation and arbitration services.

Our Methodology

Our success requires the presence of a drawn-up organizational structure that reflects the implementation and application of our strategy in a way that keeps pace with development and modernization from time to time, which requires the sustainability of our vision, the reflection of our message, and the continuation of our mission.

Our Policies

We have distinguished ourselves by establishing a framework institutional governance for the company's business and its decisions regarding dealing with its clients and employees, and this is represented by the issuance of several internal regulatory regulations and policies.

We have a capable legal team under one leadership in the company's various departments in the judicial field (administrative, commercial, criminal, public, and various quasi-judicial committees), and in alternative dispute resolution methods, such as negotiation, mediation, and arbitration, and notary, and legal consultations as of preparing studies and research, establishing companies, drafting contracts, settling inheritance disputes, and so on.
